

Product Close-up

EJ 1400 Gray/Gray Description: This PTFE/ fiberglass composite is designed for challenging insulation jacketing applications.

- ⇒ **Successfully used in insulation jacketing service since 1985.**
- ⇒ **Special coating technology for industrial fabrication.**
- ⇒ **Severe chemical and temperature exposure capabilities.**
- ⇒ **Variations engineered upon request.**
- ⇒ **Easily sewn.**
- ⇒ **Flame retardant.**

Special Colors Available

EJ 1400 Gray/Gray Properties:

Upper Use Temperature: 550°F (287°C) Continuous Service

Weight: 12.5 oz/yd² (425 g/m²)

Thickness: 0.012" (0.30 mm)

Width: 60" (1524 mm) Nominal

Tensile Strength (Warp): 300 lbs/in (2670 N/50 mm)

Tensile Strength (Fill): 250 lbs/in (2225 N/50 mm)
